Software | Virtualization

LogRhythm Solution Software can be easily deployed on customer-provided hardware and several major virtualization platforms:

Professional Services

Expertise, Availability & Assurance

Our professional services team applies industry and regulatory expertise to ensure customer success through:

- Deployment
- Health Checks
- Tune-ups
- Upgrades
- Compliance Support
- Search, Report & Alert Optimization
- Custom Device Support
- Classroom-Based, Web-Based & On-site Training Programs

Knowledge Engineering

LogRhythm's Knowledge Engineers help automate the process of turning raw data into actionable intelligence with relevant context, delivering enterprise correlation and meaningful visibility into the entire network. Customers benefit from continuous research and development and receive:

- Comprehensive Device Support
- Expert Event and Threat Level Identification
- Out-of-the-Box Alarms, Investigations and Reports
- Automated, Up-to-Date Compliance Packages (PCI, SOX, HIPAA, FISMA, GPG 13, GLBA, NERC CIP, etc.)

"Everyone in IT can use it to be more effective." Center for American Progress

"LogRhythm is long on features and flexibility." **InfoWorld**

Support Services

Customer Satisfaction is # 1

- 11/5 Mon-Fri or 24/7 Support Options
- 24/7 Access to Support Portal
- Knowledgebase Updates
- Web-Based Tutorials
- Custom Support Programs

"...with its combined coverage for real-time analysis, forensics and compliance monitoring being the best we've seen." **Bloor**

MAKING LOG DATA USEFUL™

LOG MANAGEMENT | SIEM 2.0 | FIM

"LogRhythm has set the standard for SIEM 2.0"
ascend media

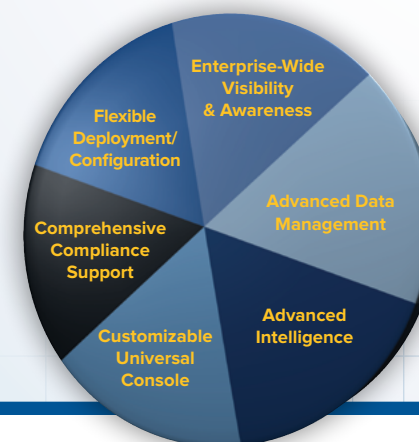

LogRhythm provides useful and actionable visibility into what is really going on in and around an enterprise. Award-winning and patented Log Management, SIEM 2.0 and File Integrity Monitoring solutions enable customers to efficiently comply with regulations, secure their networks and optimize the availability of their IT infrastructure. LogRhythm leads the industry with complete solutions that are easy to deploy, use, scale and maintain.

A Higher Standard In Log Management & SIEM 2.0

LogRhythm establishes a new and higher standard in log management and security information and event management (SIEM). At its core is the ability to collect log data from any source and make it useful for comprehensive visibility and awareness into the entire IT environment. Valuable data enrichment and advanced data management provide organizations with:

- Fast and Effective Advanced Correlation
- Real-Time Alarming
- Flexible and Powerful Reporting
- Advanced Forensic Analysis

LogRhythm is operated and managed through an easy-to-use and individually customizable console. Fully-interactive visualization tools and context-aware event management deliver powerful capabilities for protecting the network and reducing mean-time-to-resolution (MTTR). Flexible deployment and configuration options combined with intuitive, wizard-based features and comprehensive compliance support mean LogRhythm delivers unparalleled log management and SIEM 2.0 for today's compliance, security and IT operations professionals.

"We now have insights... we never had before." **REDCATSUSA**

Rapid Time-to-Value

Few organizations have the budget or manpower for an expensive and protracted implementation of Log Management and SIEM 2.0 solutions. LogRhythm is quick to install, easy to use and manage, and scales easily to meet any future requirements.

Architected from the ground up to provide Rapid Time-to-Value while reducing the Total Cost of Ownership, LogRhythm delivers:

- Fast & Easy to Deploy
- Intuitive User Interface
- Expedited Root Cause Analysis
- Reduced Mean Time to Resolution
- Out-of-the-box Compliance Packages
- Ready-to-use Reports, Alerts and Investigations
- Dynamic Visualization Tools

LogRhythm solutions are available in flexible appliance and software deployment options to meet the unique operating requirements of any enterprise.

"Designed for large enterprise and distributed environments, and delivered with excellent functionality, we give LogRhythm our **5-Star "Recommended" rating.**" **SC MAGAZINE RECOMMENDED**
